

**Virginia Section of the American Chemical Society
Grant Proposal**

The Chemical Education Committee of the Virginia Section solicits proposals for grants to support school science projects in grades K through 12. These \$50 to \$500 mini-grants are provided to teachers in the Virginia Section for the purchase of equipment and materials. Compensation for personnel costs will not be allowed. To apply for support, please send a one-page proposal that includes your name, school name, address, phone number, a one paragraph description of the project, and an itemized budget to Ryan Warren, warrencr at vcu.edu.
