VAST Exhibit Status Report to the Executive Committee – June, 2020

(This item is not assigned to a committee at present)

Budget Item for 2020: Virginia Association of Science Teachers (VAST): Exhibit \$350,00 plus \$150.00 for related expenses

The November 2020 Professional Development Institute of VAST, scheduled originally for Williamsburg will be held as a VIRTUAL EVENT.

The event management will use WHOVA, a virtual event management system which VAST has never used and with which I am unfamiliar. The event schedule will remain spread over Thursday through Saturday noon.

Unless directed otherwise by the Executive Committee, I propose to proceed with design of an exhibit for the Section, the ACS, and the AACT. The virtual exhibit charge remains at \$350.00 for non-profit organizations. I have no guidance regarding related costs at present.

To date, there appears to be no aid possibilities from ACS although not all potential resources are yet exhausted.

Any suggestions and help for designing the exhibit would be greatly appreciated. I will make myself available for direct interactions with visitors during scheduled exhibit hours and will respond to all requests for information thereafter.

This report was prepared by K. Chapman.
